

Samrudhi Computers, Ladnun

Applying Styles and Themes to an activity

Samrudhi Computers, Ladnun

AndroidManifest.xml

```
<manifest xmlns:android="http://schemas.android.com/apk/res/android"
    package="com.arvind.helloworld"
    android:versionCode="1"
    android:versionName="1.0" >

    <uses-sdk
        android:minSdkVersion="11"
        android:targetSdkVersion="21" />

    <application
        android:allowBackup="true"
        android:icon="@drawable/ic_launcher"
        android:label="@string/app_name"
        android:theme="@android:style/Theme.Dialog">
        <activity
            android:label="@string/app_name"
            android:name="com.arvind.helloworld.MainActivity">
            <intent-filter>
                <action android:name="android.intent.action.MAIN"/>
                <category android:name="android.intent.category.LAUNCHER"/>
            </intent-filter>
        </activity>
    </application>

</manifest>
```

HelloWorld Program में ही कुछ कोडिंग extra जोड़ दी गई है जो कि AndroidManifest.xml में theme के रूप में है
